New at Brampton Inn

CHESTERTOWN – Sitting on a gorgeous 35-acre oasis, nestled into the surrounding Eastern Shore woodlands and meadows, the Brampton Inn’s historic 1860 Manor House is the heart of the property with seven unique suites and rooms from which to choose.

Accommodations are spacious and individually-styled to reflect a careful harmony between historic charm and classic elegance. Whether it’s the personalized amenities or the fireplaces, the Brampton Inn’s warmth and charm offers guests the opportunity to savor precious time together with tailor-made add-on packages for sharing quality moments.

The six freestanding private cottage buildings curve gracefully around the beautiful gardens of this private country estate. Most face the woods and come with spacious porches, gardens with a private fire pit and gas grill. The interior décor is chic and authentic to the region, with polished wooden floors, a cozy seating space, and wet bar. Guests can order meals to their cottage or dine at the Manor House, which offers breakfast and afternoon tea. It is a short walk through the garden. It’s the six unique cottages, each with a story to tell, that keep guests returning year after year.

Say goodbye to the winter blues with an array of unique experiences at the Brampton Inn. Guests and locals will experience the perfect blend of indulgence, relaxation, and adventure.

“Knowing hotel guests and locals alike crave relaxing and reviving activities, our seasonal programming is designed to offer guests a place to warm up and rejuvenate with great hospitali-

ty and experiences,” explained Hilari and Dave Rhinehart, Co-Owners of the Brampton Inn.

Flirting With A Romantic Celebration

Sometimes romance is spontaneous; sometimes it’s planned spontaneity. Brampton Inn sparks romance all year round. For couples who love the charm of the Eastern Shore, Brampton Inn will check all of your boxes.
