THE FOCUS IS ON YOU

Jumping Rocks Photography

BRAMPTON

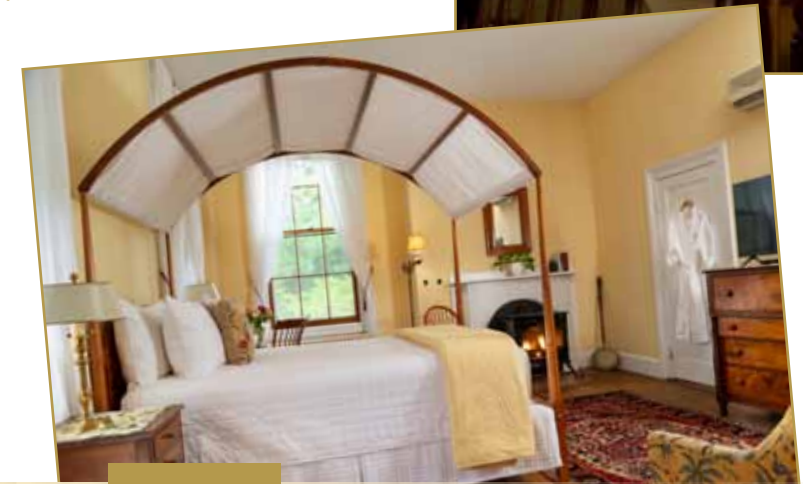

1860 | *Original, Memorable Details*

The centerpiece of the historic country estate is the Manor House which has retained its character and presence since its 1860 construction. The exterior remains essentially unaltered, and its interior details meticulously preserved featuring handsome woodwork, marble fireplaces, soaring ceilings, abundant natural light, an inviting veranda and seven beautifully appointed guest suites. A stunning representation of colonial America's beginning, the Manor House is ideal for both intimate ceremonies and receptions.

The space has been thoughtfully renovated to preserve the history that took place within its walls, offering a unique venue to create memories within. Cocktail hour is typically held on the veranda. Dinners can be held in the first-floor rooms that accommodate up to 25 people.
